

**Schindler 6200/6300**  
Décor lines, colors and materials.

# Choice of design

The Schindler 6200/6300 elevator unifies design and functionality in a way that makes passengers feel comfortable and safe. Combine style, colors and options to suit your building. Carefully selected materials enhance the look and feel.

## 2 style sets

Choose Round for a smooth organic appearance, or Square for a modern linear look. The style sets are expressed through the ceiling, corners and handrail design.

## 5 ceilings

The ceilings match the style sets perfectly and come with energy-saving LED lights.

## 41 colors

From fresh and lively to warm and inviting, choose the wall and floor color you want from our four distinct décor lines.

## Unique combinations

When it comes to customizing your elevator car interior, our Libertà concept sets you free.

- Three steps to creating a personalized ambiance:
1. Choose interior style set.
  2. Combine wall and floor colors.
  3. Add features such as operating panels, mirrors and handrails.

# A great look always comes in style

## Car interior style sets

**Square style set**  
Convey modern functionality with a minimalist and clean interior décor. The Square interior style set comes with:

- Line, Spot or Square
- Corner less car
- Straight handrail as an option

**Style set:** Square  
**Ceiling:** Spot, Stainless steel Lugano Matt Finish  
**Walls:** Mascara Red  
**Handrail:** Straight, Aluminum Brushed  
**Skirting:** Aluminum Anodized  
**Floor:** Rubber speckled Light Grey

**Round style set**  
Create a smooth and organic feeling. The Round interior style set comes with:

- Bracket or Curve ceiling
- Curved corners
- Rounded handrail as an option

**Style set:** Round  
**Ceiling:** Bracket, Stainless steel Lugano Matt Finish  
**Walls:** Capri Lemon, Catania Grey  
**Corners:** Aluminum Anodized  
**Skirting:** Aluminum Anodized  
**Floor:** Rubber speckled Sand

\*\* Corners available for 6300 only

# A perfect outfit with matching accessories.

## Fixtures and options

**Mirror**

Mirrors always add a special sense of space to rooms and buildings. In order to give your car more appeal and depth, the side walls or the rear wall can be provided with a full-height or half-height safety glass mirror.

**Handrails**

Even though your elevator travels smoothly and with almost no sound, handrails convey a feeling of security. Round and straight handrails match the interior and shapes of your car and can be mounted to the side and rear walls. The following finishes are available for round and straight style handrails: Riga Grey, aluminum polished or brushed.

**LED lighting**

The LED lightings used in the Schindler 6200/6300 combine modern design with high energy efficiency. Compared to a standard light bulb LEDs have a life expectancy of up to 20 times while consuming less energy.

### Operating panels

Choose between two operating panel options: our stylish and modern glass with touch-sensitive keypad, or a sleek and wear-resistant combination stainless steel and glass line with mechanical push buttons. You can also match landing operating panels, indicators and nameplates. Both lines are available across all décor lines.

### Keypads

Our touch-sensitive car operating panels feature two keypad options: a 10-digit version allowing passengers to compose the desired floor number (like a phone); and a conventional version listing each floor (best suited for low-rise buildings).

The push button car operating panel is only available with the conventional layout.

# Complement your elevator with appealing details

## Features and options

### Comfortable operation

Do you need Braille-labeled buttons? Is restricted access essential for your building? Our features and options let you individualize your elevator to meet specific requirements. The possibilities are nearly endless.

### Performance

Meet the daily demands of regular operation in your building, as well as any special requirements, thanks to our wide range of performance options.

### Design

With the Schindler 6200/6300 you can easily complement your building's existing look and feel. Beyond visual considerations, the elevator's technical design possibilities ensure a seamless match.

### Accessibility

Schindler believes in access for all. Usability and user friendliness shaped our approach to accessibility options in the Schindler 6200/6300.

### Security

Privacy and security can be critically important, especially in commercial buildings. Securely integrate your elevator into your overall building management concept via our related options.

### Green

The environmentally friendly features of the Schindler 6200/6300 enable you to comfortably reduce your everyday energy consumption. It's technology for clean mobility.

Want to experience more of our features and options? Please contact your Schindler consultant.

# From 1st level to skyline. Providing urban mobility.

Mobility is an essential requirement in the world in which we live and work. Schindler stands for urban mobility and is recognized as a hallmark of quality and safety. Daily, one billion people worldwide place their trust in Schindler products and services.

Schindler provides urban mobility with elevators, escalators and services that are engineered for efficiency and sustainability. Schindler accompanies the development of buildings from planning over construction to daily operation and maintaining its life-time value.

## Comprehensive planning

In order to meet individual transport needs and to create real mobility solutions, we look at more than just the perfect fit for installation. At Schindler planning starts with the analysis and simulation of traffic to determine the best solution. At Schindler we provide the expertise and the tools for individual planning:

- analysis and simulation of traffic before installation
- finding the perfect fit and solution
- setup of intelligent traffic management

## Efficient products

With our full range portfolio of elevator and escalator products we provide mobility solutions for all applications – always equipped with the latest technology for energy and transport efficiency. Our range of applications includes:

- smaller residential and office buildings
- commercial towers, retail environments
- hospitals and public buildings
- heavy-traffic environments
- high-rises
- cruise liners

## Sustainable operation

At Schindler we ensure the smooth and lasting operation of your products from day one through:

- global network of service technicians
- availability and fast delivery of spare parts
- quick responding call-center personnel
- e-monitoring diagnostic tools

## Leading technology

Progress needs innovation. Therefore, we constantly develop new products and features for high standards and more efficiency that can be easily integrated into your system. Our cutting-edge developments:

- PORT: access and destination control
- Schindler ID: passenger identification
- E-Vision: cabin entertainment and information system

# When vision meets discipline. Schindler partners with Solar Impulse.

Schindler is a main partner of **Solar Impulse**, the zero fuel airplane aiming to fly around the world propelled only by solar energy.
